CLIENT PROJECT: U of M - McGill Hall Rm 014/001A, 19-024
LAB CODE: T190212

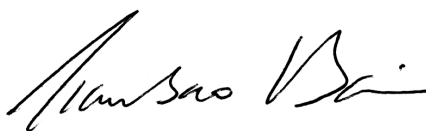

Dear Customer:

Enclosed are asbestos analysis results for TEM dust wipe samples received at our laboratory on January 21, 2019. The samples were analyzed for asbestos using transmission electron microscopy (TEM) per ASTM D6480-05 Method.

Currently, there is no regulatory limit for asbestos in dust. The analytical sensitivity for the ASTM D6480-05 method is 1,000 structures per square centimeter.

Thank you for your business and we look forward to continuing good relations.

Kind Regards,

Tianbao Bai, Ph.D., CIH
Laboratory Director
